24/07/2026 10:31

Good Morning,
Unfortunately, neither myself or my manager are able to reset or close the VHC. As well as my parts manager not being able to add parts to the VHC.
Is there any other alternative to reset the line or make it so the technician is paused on the job?

Thanks,
Dylan

Following this, you will also need to go through the parts and pricing section of the check. Once all of this is done, you will be able to close the record in the standard manner.

Kind Regards,
Alex Angov

Notification:

The screenshot shows the 'exstoAssist' application interface. On the left is a sidebar with navigation links: 'Create New Ticket', 'Tickets', 'All Tickets', 'My Team', 'My Tickets', 'Unassigned' (with a '180062' badge), 'Assigned', and 'Reopened'. The main content area features a search bar at the top with the text 'Search by assignee, ref or content'. Below the search bar is a table of tickets. The table has columns: 'User', 'Type', 'Severity', 'Application', 'Team', 'Date From', 'Date To', and 'Country'. The table is filtered to show 'All (24723)' tickets. The first row of data shows 'Outstanding (188985)' tickets. At the bottom right, there is a pagination control showing 'Items per page: 10' and '1 - 10 of 204723'. A notification pop-up is visible in the top right corner, showing 'Notifications' with a toggle for 'Unread' and a message 'No results found'.
